EPA Supplemental Info Letter 012215_FINAL.pdf

Hi Sharon,

I hope you had an enjoyable vacation. Attached please find a letter from WSP that was submitted to Ms. LaPoma late this afternoon. When we last spoke on December 16, there was some discussion about possibly continuing our dialogue next week during the week of January 26. I realize that it is now Thursday, so it may not be possible to find a free day next week on such short notice; though I am certain that both Lisa Rushton and I could make ourselves available consistent with your schedule. To the extent that we are unable to meet next week, maybe we could coordinate around the currently scheduled OU-1/OU-3 meeting on February 4. Please let me know: (1) if EPA is still interested in continuing the dialogue, and (2) assuming yes, when you would be available to do so.

I look forward to hearing from you. Thank you.

Todd Hooker

Dear Ms. LaPoma,

On behalf of our client, Vishay GSI, Inc. (VGSI), WSP is submitting the attached letter in response to technical questions raised during a meeting held on December 16, 2014, related to the New Cassel/Hicksville Groundwater Contamination Superfund Site. A hard copy of the letter will be sent to your office via Federal Express.

Please let us know if you have any questions.

Sincerely,

James Sobieraj, PE
